

EDUCATION

Our children are our future, we must invest in their education.

- We must ensure we have sufficient educators across the state for our K-12 so that classroom sizes don't exceed 14 students. If classroom sizes go over then schools will receive funding for teacher assistants to accommodate the needs of our children with a cap of 20 students per class.
- Every high school student will have access to a mentor who can walk them through affordable education options.
- Create a state-funded loan forgiveness program for graduate school students who meet the criteria as low-income and who commit to 5 years of state service.
- Intervene on the current school-to-prison pipeline.
- Oregon needs programs and policies designed to eliminate the disproportionate impact of disciplinary policies and practices on students of color.
- Amend SB 155 to include investigations of allegations of discrimination or abuse to a student.
